It has boobies.. love it~ 10/10. Pretty good memory game, nice artwork, there are completely uncensored pictures available and the hard mode is pretty unique and challenging.

It is a bit short, but in my opinion it is one of the best hentai minigames on Steam and definitely worth the price!

9/10. Hentai! <3. Done in 27 minutes. the game is simple and the pics are not great ):
